

THE #1 PRESCRIBED CUSTOM ANTERIOR BITE SPLINT IN THE WORLD

BiteSoft™

Anterior Splint

Exclusively fabricated by
TRIDENT Dental Laboratories

LINGUAL RAMP

BITESOFT FEATURES AND BENEFITS:

- **Increased Patient Acceptance & Satisfaction**- non-invasive, ease of use, and extremely comfortable to wear
- **Saves Valuable Chair Time**- requires only 2 impressions with virtually no chair side adjustments
- **Covers Only 6 Anterior Teeth**- ensuring retention and prevents inhalation of splint
- **Lingual Ramp**- ensures mandibular stability and relaxation of tense jaw muscles
- **Premium Material Options**- Allows the dentists to customize for their patients
- **Protects All Dental Restorations**- crowns, veneers, implants, fillings
- **Worn Only at Night** - Provides low risk for any occlusal change

"The BiteSoft Anterior Splint, from Trident is the one I prescribe for all my patients that clench and grind their teeth; especially, when needing to protect my restorative cosmetic work! The soft inner liner is safe for any kind of restoration and the patented design proves to be quite effective in preventing the problems caused by Bruxism."
