Now that's what I'm talking about!

You guys are on the ball. I would like to commend your lab on a wonderful job done for my patient Joseph Feyjoo. I believe the moon and all the stars must have been aligned in the making of his lower molar crown, number 30.

With a slight contact adjustment his crown went in like butter, **just like butter!** He was amazed, I was proud and if we can keep this up you will see so much more work from us. Thank You.

Sincerely

Dr. Vel Duzdevich
